On Tuesday, 6 October, five things will happen at VGEC that don't appear in any IEEE handbook. This page is the evidence.

§0 - BACKGROUND

IEEE writes the rules your Wi-Fi runs on. Rules are great.

Today, we're breaking five.

(responsibly, mostly.)

OCTOBER 2026 TUESDAY

§1 - THE DAY

One day. Five experiences. No syllabus.

IEEE Day marks the first time engineers gathered to share ideas, back in 1884. We're celebrating with a hunt, a workshop, a design duel, charades and Garba — because the people were always the point.

ANOMALY 01 - TREASURE HUNT

The campus is hiding something.

Form a team. Crack the questions. Follow the clues. Find the whistles that would rather stay lost.

FIRST CLUE: (hover)

ANOMALY 02 - WORKSHOP

02

Come curious. Leave with something new.

topic: [TBA] — we're keeping it quiet.

GET CURIOUS

ANOMALY 03 - BRAND IDENTITY

A brand. A blank canvas. No bad ideas.

Solo. One made-up brand. One very judgmental grid.

BUILD THE BRAND

ANOMALY 04 - TECH CHARADES

04

No keyboard. No mouse. Just vibes.

Dumb charades, rewritten for engineers. Your team guesses the tech term — you can't say it, type it or draw it. Good luck miming "Kubernetes".

WORDS YOU CAN'T SAY

ANOMALY 05 - GARBA

Yes, IEEE does Garba.

§3 - THE FLOW

The day, plotted. (very unscientifically)

Drag along the line to scrub the day. Every anomaly has its own signal.

§4 - REGISTRATION

Choose your chaos.

DEADLINE

Registration closes [Date].

Five short forms. About a minute each.

§5 - THE FINE PRINT

Rules. Yes, even here.

Short, sensible, and mostly about showing up. Read them once; we'll pretend you read them twice.

GENERAL

PER EVENT

HOW TO REGISTER

clause 5.4 is the important one.

- 5.1
- Carry your college ID.
- Every event checks it at the door. No ID, no anomaly.
- 5.2
- Register before [deadline].
- Spot entries only if seats are left over.
- 5.3
- Show up before your slot.
- The whistle waits for no one. Neither do the judges.
- 5.4
- Be kind — to people, property and the campus.
- Clues are not souvenirs. Put them back where you found them.
- 5.5
- Coordinators and judges have the final word.
- Arguing with a judge is not an event. Yet.
- 5.6
- Your stuff is your responsibility.
- Keep an eye on bags, phones and dandiya.

§6 - FAQ

Questions we've already been asked.

Still stuck? Ask a volunteer on the day, or write to [contact email].

- Who can take part?
- Any VGEC student. [Confirm: are other colleges welcome?]
- Do I need to be an IEEE member?
-
- Can I register for more than one event?
-
- How much does it cost?
-
- What should I bring?
-
- Will there be certificates or prizes?
-
- I have never done Garba. Is that a problem?
-

§8 - REPORT A BUG IN THE DAY

KEEP, FIX, OR NEVER DO AGAIN?

Be honest. We're engineers; we can take it.

we read all of them, even the mean ones.
